

25W OUTPUT UHF RF POWER BOOSTER AMPLIFIER

DRF-PA Datasheet

Features	Applications
Good Quality Appearance	UHF RF Power Amplifier
Durable Corrosion Resistance	Radio Power Amplifier
Minimum Optimized Dimension	RF Jammer
Designed By High Performance Technology	Wireless Transmissions

Instructions of use:

SPECIFICATION

Frequency Range - MHz	400-470
Bandwidth - MHz	70
Gain - dBm	44
Min. / Max. Input RF Power - W	0.2 / 5-6W
Min. / Max. Output RF Power - W	0.8 / 15.....25W
Input /Output Impedance - Ω	50
Input Connector Model	SMA
Output Connector Model	UHF
Box Included	RF Input Cable + SMA Adapter + Car 12V Power Jack
Booster "Amplifier" Demensions "Only Device"	115 x 75 x 50
